My Review

Admission -

7 /10

My college life was a great experience. Met many beautiful people. I don't have any good or bad remarks cause it's life and college is part of our life. I will truly remember my faculty, my friends, the things I learned for a long time.

Great Infrastructure

Admission -

4.7 /10

College is good in context of study, faculty, infrastructure but it is bad in context of placements. college should take some steps to increase placements, as all students want to get placed in good company

About my college

Placement -

8 /10

The placement of our college is very good. Around 75% of students get placed every year. The average package is around 4-8 lakh per annum and last year the highest package is 18lakh. Every year around 15-20 companies visit our college. Companies like Amazon, Wipro, Infosys, HCL, TCS, Flipkart etc are visits every year. The placement cell of our college is very good. Overall the college gives a good number of placement. You should go to college it is good in every sector. My plan after getting the degree is to do a job with a good package as a software engineer.

Good

Placement -

7 /10

In 3rd year students get placements. They usually get internship proposals during every year by the college to work in some media houses or if you don't get any internship college to organize summer training for 1st-year student and give them a task such as article writing(in BJMC).

STUDENT SATISFACTION RATINGS

Placement -

7 /10

Almost 60-70% of students got placement in this college. Around 3-4Lacs per anum (its the average package, highest is about 7-8 lacs) depends upon the skills and knowledge. Companies like Wipro, TCS, Infosys, etc. Comes here for placements. 50-60% of students got an internship in many of the companies. Overall placement is good if a student study genuinely. After graduation, I will do MCA (Post Graduation).
